

COLORADO

EDP Renewables' first wind farm in Colorado, Crossing Trails Wind Farm, is under construction and is expected to begin operations in late 2020.

 Counties with Wind Farms Under Construction

 Crossing Trails Wind Farm (104 MW)

104 MW in Colorado

EDPR's Colorado wind farm will produce enough electricity to power more than **50,000** homes.¹

Economic Benefits

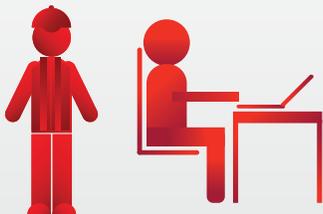

Our Colorado project represents a capital investment of approximately **\$145 million**.²

Approximately **\$12 million** in payments to local governments through the life of the project.

More than **\$20 million** will be paid to local landowners through the life of the project.

Supporting **101** jobs during project construction and will create **6-10** permanent jobs in Colorado.

\$197.8 million spent within the state of Colorado through 2019.³

Median annual salary for a wind technician is **\$54,370**.⁴

About Us

EDP Renewables North America LLC (EDPR NA) and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 52 wind farms, eight solar parks, and seven regional offices across North America, EDPR NA has developed more than 7,300 megawatts (MW) and operates more than 7,000 MW of renewable energy projects. With more than 700 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is owned by EDP Renováveis, S.A. (EDP Renewables or EDPR), a global leader in the renewable energy sector and the world's fourth-largest wind energy producer. With a sound development pipeline, first-class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 14 markets (Belgium, Brazil, Canada, Colombia, France, Greece, Italy, Mexico, Poland, Portugal, Romania, Spain, the United Kingdom, and the United States). Energias de Portugal, S.A. ("EDP"), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 13 consecutive years.

Wind Power In STATE⁶

Total Installed Wind Capacity: **3,762**

State Ranking for Installed Capacity: **8th**

Wind Projects Online: **26**

Number of Wind Turbines: **2,275**

Percentage of In-State Energy Production: **19.2%**

Equivalent U.S. Homes Powered: **1,373,400**

Wind Industry Employment: **7,001 to 8,000**

Wind Manufacturing Facilities: **18**

Total Project Investment: **\$7.6 Billion**

Annual Land Lease Payments: **\$17 Million**

¹Power generation calculated using a 35% capacity factor for wind. Household consumption based on the [2018 EIA Household Data monthly average consumption by state](#).

²Assumes the average cost of an installed wind farm is \$14 million/MW for projects built after 2018. Based on [Based on U.S. DOE 2018 Wind Technologies Market Report](#).

³Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.

⁴Based on 2018 average wages from the [Bureau of Labor Statistics for wind technicians](#).

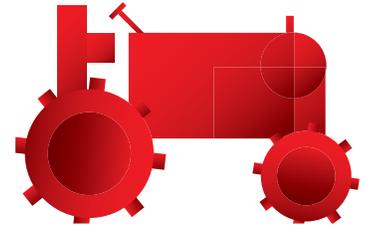

⁵Assumes 0.58 gallons of water consumed per kWh of conventional electricity from [Lee, Han, & Elgowainy, 2016](#).

⁶Statistics provided by [AWEA State Wind Energy Fact Sheets](#).

⁷Based on [2019 AWEA Wind Powers America Annual Report](#).

EDPR's Colorado project will save more than **184 million** gallons of water each year.⁵

EDPR's projects are compatible with other land uses.

POWERING THE USA
Wind is the top renewable energy source in the U.S., supplying 7 percent of all electricity.⁷

EDPR's clean energy projects provide energy security and help diversify supply.
