Eólica de Coahuila is a joint venture between EDPR and Industrias Peñoles, the world’s largest producer of tuned silver. The wind farm is located in private lands owned by Industrias Peñoles in an area adjacent to the municipalities of General Cepeda and Ramos Arizpe in Coahuila, Mexico.

199.5 MW
ONLINE SINCE 2016

Project Benefits

- Eólica de Coahuila represents a capital investment of approximately $339 million.¹
- Industrias Peñoles purchases energy from Eólica de Coahuila.⁴
- Eólica de Coahuila produces enough electricity to power thousands of Coahuila homes.
- Created 399 full-time equivalent jobs during construction and 3 permanent jobs during the life of the project.²
- $33.1 million spent within 50 miles of the wind farm through 2019.³
- Eólica de Coahuila saves more than 354 million gallons of water each year.⁵
Turbine Technology

Eólica de Coahuila consists of 95 Gamesa G114 2.1 MW wind turbines.

About Us

EDP Renewables North America LLC (EDPR NA) and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 52 wind farms, eight solar parks, and seven regional offices across North America, EDPR NA has developed more than 7,300 megawatts (MW) and operates more than 7,000 MW of renewable energy projects. With more than 700 employees, EDPR NA’s highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is owned by EDP Renováveis, S.A. (EDP Renewables or EDPR), a global leader in the renewable energy sector and the world’s fourth-largest wind energy producer. With a sound development pipeline, first-class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 14 markets (Belgium, Brazil, Canada, Colombia, France, Greece, Italy, Mexico, Poland, Portugal, Romania, Spain, the United Kingdom, and the United States). Energias de Portugal, S.A. (“EDP”), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 13 consecutive years.

Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.

Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.
