

TEXAS: Los Mirasoles

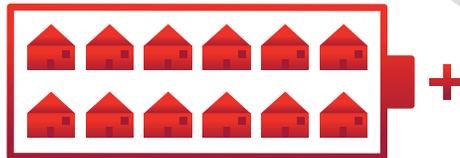

Los Mirasoles Wind Farm consists of two phases and is located in the Rio Grande Valley, about 16 miles from the U.S. border with Mexico in Hidalgo and Starr Counties. Named after the large sunflowers grown in the area, Los Mirasoles is surrounded by agricultural lands predominately used to grow sorghum, cotton, and sunflowers, as well as within ranching and hunting properties.

300.4 MW

ONLINE SINCE 2016

Los Mirasoles Wind Farm produces enough electricity to power more than **65,000** Texas homes.¹

Economic Benefits

Los Mirasoles represents a capital investment of approximately **\$495 million**.²

Approximately **\$9.9 million** in cumulative payments to local governments through 2019.³

More than **\$7.5 million** paid to local landowners through 2019.

Created **210** full-time equivalent jobs during construction and **17** permanent jobs during the life of the project.⁴

\$20.3 million spent within 50 miles of the wind farm through 2019.⁵

GM, Home Depot, Philips Electronics, and Philips Lighting purchase energy from Los Mirasoles.⁶

Turbine Technology

Los Mirasoles I Wind Farm consists of 125 Vestas V110 2 MW wind turbines and Los Mirasoles II Wind Farm consists of 14 Vestas V136 3.6 MW wind turbines.

About Us

EDP Renewables North America LLC (EDPR NA) and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 52 wind farms, eight solar parks, and seven regional offices across North America, EDPR NA has developed more than 7,300 megawatts (MW) and operates more than 7,000 MW of renewable energy projects. With more than 700 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is owned by EDP Renováveis, S.A. (EDP Renewables or EDPR), a global leader in the renewable energy sector and the world's fourth-largest wind energy producer. With a sound development pipeline, first-class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 14 markets (Belgium, Brazil, Canada, Colombia, France, Greece, Italy, Mexico, Poland, Portugal, Romania, Spain, the United Kingdom, and the United States). Energias de Portugal, S.A. ("EDP"), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 13 consecutive years.

¹Power generation calculated using a 35% capacity factor for wind based on [2019 AWEA Wind Powers America Annual Report](#). Household consumption based on the [2018 EIA Household Data monthly average consumption by state](#).

²Assumes the average cost of an installed wind farm is \$1.4 million/MW for projects built after 2018 and \$1.7 million/MW for projects built between 2012 and 2016. Based on [U.S. DOE 2018 Wind Technologies Market Report](#) and [U.S. DOE 2015 Wind Technologies Market Report](#).

³Cumulative local government payments from 2010 through 2019.

⁴Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁵Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.

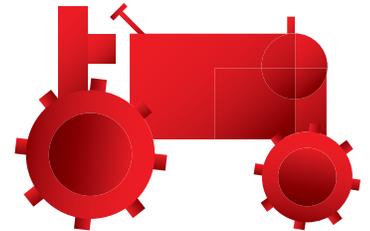

⁶Los Mirasoles I Wind Farm Offtakers: GM (PPA); Home Depot (PPA); Philips Electronics (PPA); Philips Lighting (PPA). Additional off-takers privately purchase energy from Los Mirasoles I Wind Farm via long-term agreements; Renewable Energy Credits from this portion are sold into the market. Los Mirasoles II Wind Farm Offtakers: Offtakers privately purchase energy from Los Mirasoles II Wind Farm.

⁷Assumes 0.58 gallons of water consumed per kWh of conventional electricity from [Lee, Han, & Elgowainy, 2016](#).

⁸Based on [2019 AWEA Wind Powers America Annual Report](#).

Los Mirasoles Wind Farm saves more than **533 million** gallons of water each year.⁷

Los Mirasoles Wind Farm is compatible with other land uses.

POWERING THE USA
Wind is the top renewable energy source in the U.S., supplying 7 percent of all electricity.⁸

Los Mirasoles Wind Farm provides energy security and helps diversify supply.
