

WISCONSIN

EDP Renewables is a wind industry leader in Wisconsin. The company's footprint in the state includes the Quilt Block Wind Farm.

■ Counties with Operational Wind Farms

 Quilt Block Wind Farm (98 MW)

 QUILT BLOCK
WIND FARM

98 MW in Wisconsin

EDPR's Wisconsin wind farm produces enough clean electricity to power more than **36,000** Wisconsin homes.¹

Economic Benefits

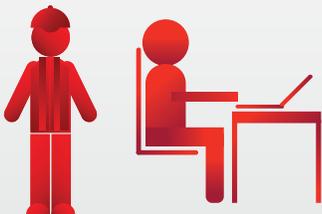

Our Wisconsin project represents a capital investment of approximately **\$166 million**.²

Approximately **\$547,000** in cumulative payments to local governments through 2019.³

More than **\$6.3 million** paid to local landowners through 2019.

Supported **100** jobs during project construction and created **12** permanent jobs in Wisconsin.

\$209.3 million spent within the state of Wisconsin through 2019.⁴

Median annual salary for a wind technician is **\$54,680**.⁵

About Us

EDP Renewables North America LLC ("EDPR NA") and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 52 wind farms, eight solar parks, and seven regional offices across North America, EDPR NA has developed more than 7,300 megawatts (MW) and operates more than 7,000 MW of renewable energy projects. With more than 700 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is owned by EDP Renováveis, S.A. ("EDP Renewables" or "EDPR"), a global leader in the renewable energy sector and the world's fourth-largest wind energy producer. With a sound development pipeline, first-class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 14 markets (Belgium, Brazil, Canada, Colombia, France, Greece, Italy, Mexico, Poland, Portugal, Romania, Spain, the United Kingdom, and the United States). Energias de Portugal, S.A. ("EDP"), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 12 consecutive years.

Wind Power In Wisconsin⁷

Total Installed Wind Capacity: **746 MW**
State Ranking for Installed Capacity: **24th**
Wind Projects Online: **17**
Number of Wind Turbines: **452**
Percentage of In-State Energy Production: **2.6%**
Equivalent U.S. Homes Powered: **151,300**
Wind Industry Employment: **1,001 to 2,000**
Wind Manufacturing Facilities: **28**
Total Project Investment: **\$1.6 Billion**
Annual Land Lease Payments: **\$7.6 Million**

⁷Power generation calculated using a 35% capacity factor for wind. Household consumption based on the [2018 EIA Household Data monthly average consumption by state](#).

⁸Assumes the average cost of an installed wind farm is \$1.6 million/MW for projects built in 2017. Based on [U.S. DOE 2017 Wind Technologies Market Report](#).

⁹Cumulative local government payments from 2010 through 2019.

¹⁰Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.

¹¹Based on 2018 average wages from [Bureau of Labor Statistics for wind technicians](#).

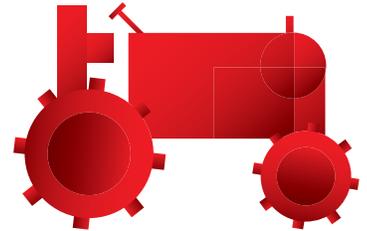

¹²Assumes 0.58 gallons of water consumed per kWh of conventional electricity from [Lee, Han, & Elgowainy, 2016](#).

¹³Statistics provided by [AWEA State Wind Energy Fact Sheets](#).

¹⁴Based on [2019 AWEA Wind Powers America Annual Report](#).

EDPR's Wisconsin project saves more than **174 million** gallons of water each year.⁶

EDPR's projects are compatible with other land uses.

POWERING THE USA

Wind is the top renewable energy source in the U.S., providing 7 percent of all electricity.⁸

EDPR's clean energy projects provide energy security and help diversify supply.
