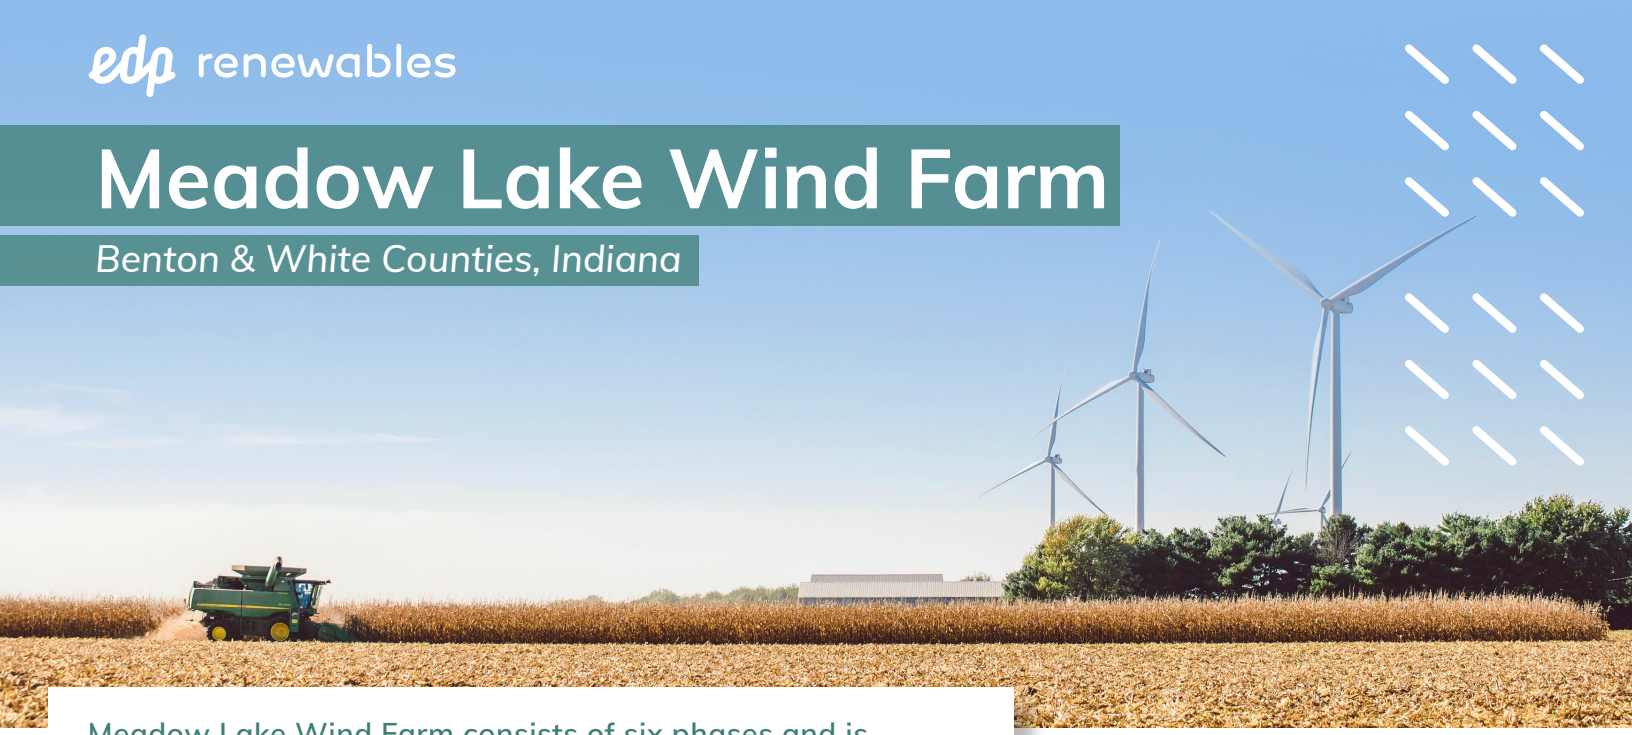
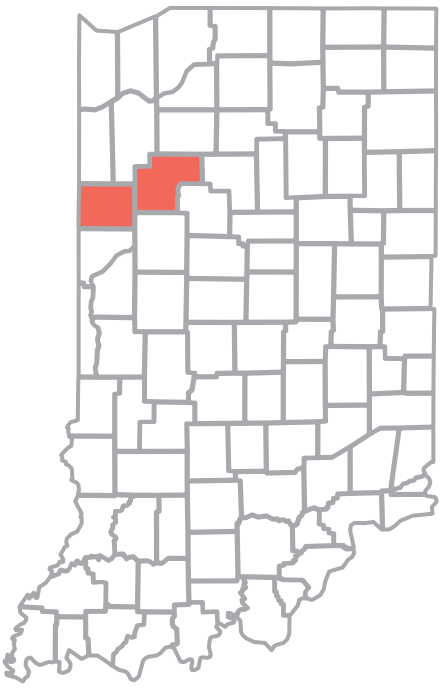
Meadow Lake Wind Farm

Benton & White Counties, Indiana



Meadow Lake Wind Farm consists of six phases and is located in northwestern Indiana in Benton and White counties, northwest of Indianapolis. The site is advantageous as a location for modern wind power electrical generation as the area has a strong, proven wind resource.



801.25 MW

ONLINE SINCE 2009

Meadow Lake Wind Farm's generation is equivalent to the consumption of more than 213,000 Indiana homes.[1]

Meadow Lake saves more than 1.4 billion gallons of water each year and prevents the air pollution that causes smog, acid rain, and climate change.[2]

Economic Benefits

CAPITAL INVESTMENT[2]
$1 billion+

$17.3 million
PAID TO LOCAL GOVERNMENTS[3]

$51.3 million
PAID TO LANDOWNERS

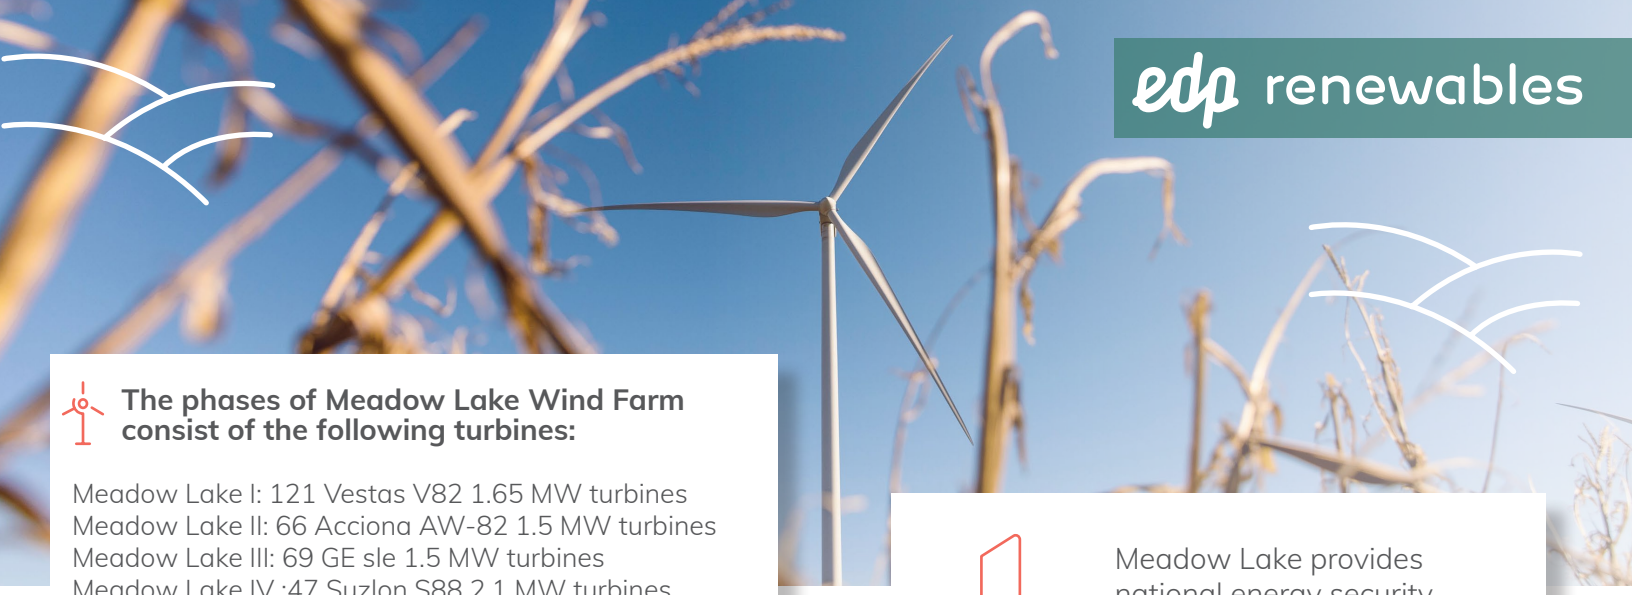
$65.4 million
SPENT LOCALLY[4]

PERMANENT JOBS[5]
63 jobs created

CONSTRUCTION JOBS[5]
429 jobs created

MEADOW LAKE WIND FARM®

Capital investment, local government payments, and job creation data through 2020. Remaining data through 2019.



edp renewables

The phases of Meadow Lake Wind Farm consist of the following turbines:

Meadow Lake I: 121 Vestas V82 1.65 MW turbines
Meadow Lake II: 66 Acciona AW-82 1.5 MW turbines
Meadow Lake III: 69 GE sle 1.5 MW turbines
Meadow Lake IV :47 Suzlon S88 2.1 MW turbines
Meadow Lake V: 50 Vestas V110 2 MW turbines
Meadow Lake VI: 49 Vestas V136 3.6 MW turbines and 12 Vestas V110 2 MW turbines.

Meadow Lake provides national energy security and helps diversify domestic supply.

Ameren, ComEd, Cummins, Hoosier Energy, Nestle, and Wabash Valley Power Alliance purchase energy from Meadow Lake.[6]

Wind is the top renewable energy source in the U.S., supplying 8.4 percent of all utility-scale electricity.[8]

About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, eight solar parks, and seven regional offices across North America, EDPR NA has developed more than 8,300 megawatts (MW) and operates more than 8,000 MW of onshore utility-scale renewable energy projects. With more than 800 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDP Renewables (Euronext: EDPR), is a global leader in the renewable energy sector and the world's fourth-largest renewable energy producer. With a sound development pipeline, first class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 17 international markets (Belgium, Brazil, Canada, Chile, Colombia, France, Greece, Hungary, Italy, Mexico, Poland, Portugal, Romania, Spain, the United Kingdom, the United States, and Vietnam). Energias de Portugal, S.A. (EDP), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 13 consecutive years.

[1]Power generation calculated using a 35% capacity factor for wind based on 2019 AWEA Wind Powers America Annual Report. Household consumption based on the 2018 EIA Household Data monthly average consumption by state.

[2]Assumes the average cost of an installed wind farm is $1.4 million/MW for projects built after 2018, $1.6 million/MW for projects built in 2017, $1.7 million/MW for projects built between 2012 and 2016, and $2.2 million/MW for projects built before 2012. Based on U.S. DOE 2018 Wind Technologies Market Report, U.S. DOE 2017 Wind Technologies Market Report, and U.S. DOE 2015 Wind Technologies Market Report.

[3]Cumulative local government payments from 2010 through 2020.

[4]Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

[5]Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.

[6]Meadow Lake I Wind Farm Offtakers: ComEd (REC Contract). Additional offtakers privately purchase energy from Meadow Lake I Wind Farm.
Meadow Lake II Wind Farm Offtakers: ComEd (REC Contract); Ameren (REC Contract). Additional offtakers privately purchase energy from Meadow Lake II Wind Farm.
Meadow Lake III Wind Farm Offtakers: Ameren (REC Contract). Additional offtakers privately purchase energy from Meadow Lake III Wind Farm.
Meadow Lake IV Wind Farm Offtakers: Ameren (REC Contract). Additional offtakers privately purchase energy from Meadow Lake IV Wind Farm.
Meadow Lake V Wind Farm Offtakers: Hoosier Energy (PPA); Wabash Valley Power Alliance (PPA).
Meadow Lake VI Wind Farm Offtakers: Cummins Inc. (PPA); Wabash Valley Power Alliance (PPA); Nestle (PPA)

[7]Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

[8]Based on U.S. Energy Information Administration. March 2021.
