

NOTICE OF PROPOSED CHANGE TO AN APPROVED RENEWABLE ENERGY PROJECT (NATION RISE WIND FARM)

Project Name: Nation Rise Wind Farm

IESO Contract Number: L-006351-WIN-001-100

Project Location: The proposed Nation Rise Wind Farm is located on private and public lands in the United Counties of Stormont, Dundas and Glengarry in the western portion of the Township of North Stormont, Ontario, and bounded to the south by the Township of South Stormont and to the west by the boundary of the Township of North Dundas. The north portion of the site is delimited by the municipality boundaries of Russell and the Nation. Courville Road and MacMillan Road are the east boundaries of the project.

Dated at the Township of North Stormont this 16th day of February 2022.

Nation Rise Wind Farm Limited Partnership was issued a Renewable Energy Approval (REA) on 4 May 2018 [0871-AV3TFM] in respect of the Nation Rise Wind Farm. Information with respect to the decision on this project can be viewed on the Environmental Registry by searching EBR #013-1674. Nation Rise Wind Farm Limited Partnership is proposing to make changes to the project and the project itself is subject to the provisions of the *Environmental Protection Act (Act)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice is being posted on the project website to make the public is aware of the **proposed changes to the project**.

Project Description and Proposed Changes: Pursuant to the Act and Regulation, the project in respect of which the REA was issued, is a Class 4 Wind Facility. An application has been made to the Ministry of the Environment, Conservation and Parks (MECP) to change the project. The proposed change to the Project consists of keeping the staging/laydown area located alongside Forgues Road and north of Concession Road 7 (Ashburn Road) and Turbine 16 in place after construction. This staging area is to be left in place at the request of the landowner as this area can be utilized as an extension of the already existing agricultural and grain transportation operation and farm use. The size is smaller (3.4 ha) and location of the staging area will not change compared to the originally approved area.

The changes do not affect the facility's Class 4 designation or its total maximum nameplate capacity of approximately 100 MW.

Document for Inspection: Nation Rise Wind Farm Limited Partnership has been required to prepare a draft Modifications Report which outlines updates made to each of the reports and studies provided as part of the REA. Written copies of the draft Modification Report that describes the proposed changes will be made available for public examination as of February 18, 2022 at the municipal offices of North Stormont Township (15 Union Street, Berwick, ON, K0C 1G0) and the United Counties of Stormont, Dundas, and Glengarry (26 Pitt St., Cornwall, ON, K6J 3P2). It is also available online on the project's website: www.nationrisewindfarm.com
