

# Reloj del Sol Wind Farm

Zapata County, Texas

Reloj del Sol Wind Farm is located outside of San Ygnacio in Zapata County. The project provides landowners with a stable, weather-resistant cash crop through lease payments with minimal impact on current land use.

## 209 MW

ONLINE SINCE 2020

 Reloj del Sol Wind Farm's generation is equivalent to the consumption of more than **45,000 Texas homes.<sup>1</sup>**

 Reloj del Sol saves more than **372 million** gallons of water each year and will prevent the air pollution that causes smog, acid rain, and climate change.<sup>2</sup>

## Economic Benefits

CAPITAL INVESTMENT<sup>3</sup>  
**\$293.1 million+**

**Approximately \$36 million**  
WILL BE PAID TO LOCAL GOVERNMENTS

**Approximately \$100 million**  
WILL BE PAID TO LANDOWNERS

**Millions of dollars**  
WILL BE SPENT LOCALLY

PERMANENT JOBS<sup>4</sup>  
**6 jobs created**

CONSTRUCTION JOBS<sup>4</sup>  
**250 jobs created**

WIND FARM SM

Capital investment through 2020. Job creation data through 2019. Remaining data reflects the estimated amount throughout the life of the project.

Reloj del Sol Wind Farm consists of 63 Nordex Acciona AW132 3.4 MW wind turbines.

Power generated at Reloj del Sol strengthens the Texas electric grid.

Reloj del Sol provides national energy security and helps diversify domestic supply.

Wind is the top renewable energy source in the U.S., supplying 8.4 percent of all utility-scale electricity.<sup>5</sup>

## About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and seven regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,000 MW of onshore utility-scale renewable energy projects. With more than 800 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDP Renewables (Euronext: EDPR), is a global leader in the renewable energy sector and the world's fourth-largest renewable energy producer. With a sound development pipeline, first class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is present in 26 international markets across Europe, Latin America, North America, and Asia.\* EDP, the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 14 consecutive years and was recently recognized as the world's most sustainable electric utility in the Dow Jones index.

\* Definitive presence in Asian markets is pending regulatory approval for the Sunseap transaction.

<sup>1</sup>Power generation calculated using a 35% capacity factor for wind based on 2019 AWEA Wind Powers America Annual Report. Household consumption based on the 2018 EIA Household Data monthly average consumption by state.

<sup>2</sup>Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

<sup>3</sup>Assumes the average cost of an installed wind farm is \$1.4 million/MW for projects built after 2018. Based on U.S. DOE 2018 Wind Technologies Market Report, U.S. DOE 2017 Wind Technologies Market Report, and U.S. DOE 2015 Wind Technologies Market Report.

<sup>4</sup>Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

<sup>5</sup>Based on U.S. Energy Information Administration. March 2021.
