

# Cattlemen II Solar Park

Milam County, Texas

Cattlemen II Solar Park is a proposed 150 MW solar project located in the northeast corner of Milam County, Texas, approximately one half mile from the original Cattlemen I Solar Park site. The project would be sited entirely on private, non-cultivated land that would be leased from landowners who recognize the benefits of hosting a solar project. Lease payments would serve as a stable, weather-resistant cash crop that complements the area's agricultural economy. Cattlemen Solar II could commence construction in 2023, which would enable full operations to be achieved in 2024.

## 150 MW

ANTICIPATED COD 2024

 Cattlemen II Solar Park's generation would be equivalent to the consumption of more than **23,000 Texas homes.<sup>1</sup>**

 Cattlemen II would save more than **190 million** gallons of water each year and prevent the air pollution that causes smog, acid rain, and climate change.<sup>2</sup>

## Economic Benefits

**CAPITAL INVESTMENT**  
**Approximately \$220 million**

**An estimated \$41 million** IN TAXES WOULD BE PAID TO SUPPORT LOCAL SCHOOLS AND COMMUNITY SERVICES

**Millions of dollars** WOULD BE PAID TO LANDOWNERS

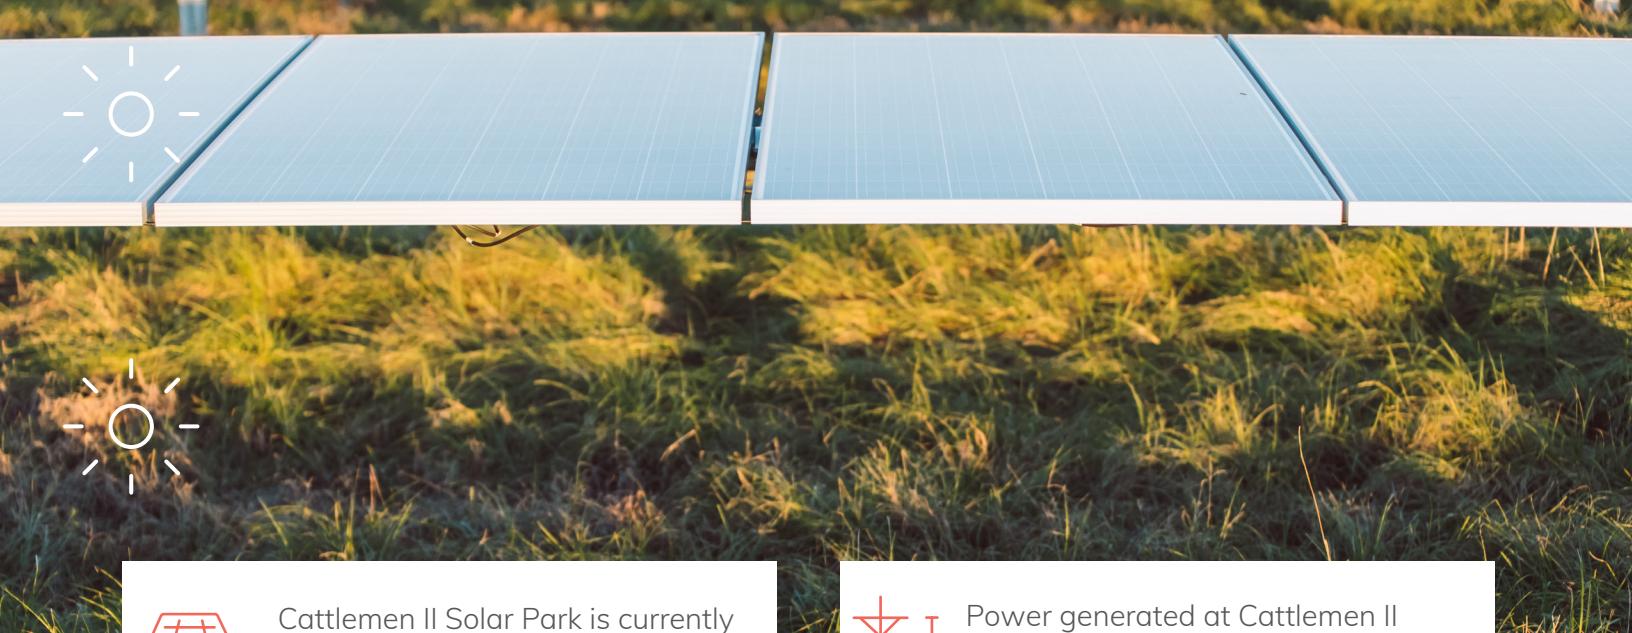

**Millions of dollars** WOULD BE SPENT LOCALLY

**2+ permanent jobs** WOULD BE CREATED

**Approximately 300 construction jobs** WOULD BE CREATED

Cattlemen II Solar Park is currently exploring using single-axis tracking PV panels.

Power generated at Cattlemen II would support the state of Texas' electric grid.

Cattlemen II would contribute to the state of Texas and national energy security, helping diversify domestic supply.

In 2020, solar represented 43 percent of new generating capacity in the U.S.<sup>3</sup>

## About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and eight regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,200 MW of onshore utility-scale renewable energy projects. With more than 950 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDP Renewables (Euronext: EDPR), is a global leader in the renewable energy sector and the fourth largest producer worldwide. With its robust development portfolio, first-class assets, and a market-leading operating capacity, EDPR has shown extraordinary growth over the past few years, with a presence in 26 markets across Europe, Latin America, North America, and Asia.

EDPR is a driver of social progress with its commitment to sustainability and integration, with their employee-centred policies earning them a listing in the Bloomberg Gender-Equality Index and seeing them named a Top Employer 2022 in Europe (Spain, Italy, France, Romania, Portugal, and Poland) and Brazil, as well as a Top Workplace 2022 in the United States.

EDP – EDPR's main shareholder – is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been listed on the Dow Jones Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.
