SOLAR PARKS

8,200+ MW

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and eight regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,200 MW of onshore utility-scale renewable energy projects. With more than 950 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDP Renewables (Euronext: EDPR), is a global leader in the renewable energy sector and the fourth largest producer worldwide. With its robust development portfolio, first-class assets, and a market-leading operating capacity, EDPR has shown extraordinary growth over the past few years, with a presence in 26 markets across Europe, Latin America, North America, and Asia.

EDPR is a driver of social progress with its commitment to sustainability and integration, with their employee-centred policies earning them a listing in the Bloomberg Gender-Equality Index and seeing them named a Top Employer 2022 in Europe and a Top Workplace 2022 in the United States.

EDP – EDPR's main shareholder – is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been listed on the Dow Jones Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.

EDPR NA'S IMPACT

CREATED

950 permanent jobs
7,900 construction jobs

GENERATED

the equivalent of
2 million+ homes'
energy consumption

PAID

\$379 million+ to landowners
\$308 million+
to local governments

MAINTAINED

278 million+ hours
of operational history

SAVED

12.4 billion+ gallons of water
AVOIDED
24 billion+ pounds of CO₂

INVESTED

\$17 billion (approx.)
in capital

COMMUNITY SUPPORT

EDPR NA conducts the majority of its business in rural communities across the United States, Canada, and Mexico. Obtaining and maintaining credibility and the trust of landowners, town officials, and other stakeholders is a crucial aspect of building successful projects. At EDPR NA, our community relationships represent more than business transactions. We value strong relationships with landowners and communities who see the possibilities of conscientious land stewardship, rural economic development, and contributing to a clean energy future.

The property taxes generated by EDPR NA's projects provide revenues for schools, local roads, police, fire protection, and other essential services. Additionally, EDPR NA's projects yield economic benefits to communities in the form of direct and indirect jobs, payments to landowners, and increased local spending. EDPR NA purchases many materials and services locally, and employee wages and landowner royalty payments are spent in local communities.

PROJECT MAP

NORTH AMERICA UTILITY-SCALE WIND FARMS & SOLAR PARKS

UNITED STATES

ARIZONA

- **Sun Streams Solar Park**
158 MW | Maricopa County | 2019

CALIFORNIA

- **Las Camas Solar Park**
200 MW | Merced County | 2024
