

Cattlemen Solar Park

Milam County, Texas

Cattlemen Solar Park is a proposed 240 MW solar project located in the northeast corner of Milam County, Texas, approximately 70 miles northeast of Austin. The project area would be located west of Baileyville, along FM 2027, and consist primarily of pastureland. The project would be sited entirely on private land that would be leased from landowners who recognize the benefits of hosting a solar project. Cattlemen Solar could commence construction in 2022, which would enable full operations to be achieved in 2023.

240 MW
ESTIMATED COMMERCIAL
OPERATION DATE **2023**

Cattlemen Solar Park's generation would be equivalent to the average consumption of more than **37,000 Texas homes**.¹

Cattlemen Solar Park's will save more than **304 million gallons** of water each year and prevents the air pollution that causes smog, acid rain, and climate change.²

Economic Benefits

CAPITAL INVESTMENT
\$280 million+

\$13 million+
WILL BE PAID TO LOCAL GOVERNMENTS

Millions of dollars
WILL BE PAID TO LANDOWNERS

Millions of dollars
WILL BE SPENT LOCALLY

PERMANENT JOBS
4+ jobs created

CONSTRUCTION JOBS
Approximately 400+ jobs
would be created

Cattlemen Solar Park is currently exploring using single-axis tracking PV panels, across approximately 2,600 acres.

Power generated at Cattlemen Solar Park will support **Texas' electric grid**.

Cattlemen Solar Park will **contribute to the national energy security** for the state of Texas and the United States, helping diversify domestic supply.

In 2020, solar represented **nearly 43 percent of new electricity generating capacity in the U.S.**³

About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and eight regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,200 MW of onshore utility-scale renewable energy projects. With more than 950 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector. EDPR is the fourth largest renewable energy producer worldwide with a presence in 28 markets across Europe, North America, South America and Asia Pacific. EDPR has a robust development portfolio with first-class assets and a market-leading operational capability in renewables. These include wind onshore, utility scale and distributed solar, wind offshore (through its 50/50 JV - OW) and technologies complementary to renewables such as batteries and green hydrogen.

EDPR is a division of EDP (Euronext: EDP), a leader in the energy transition with a focus on decarbonization. EDP - EDPR's main shareholder - has been listed on the Dow Jones Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.
