

Flatrock Creek Solar Park

Allen County, Indiana

Flatrock Creek Solar Park would be located approximately 10 miles southeast of Fort Wayne, Indiana. The solar park would compliment the area’s agriculture and it would bring millions of dollars of capital investment to southern Allen County. Flatrock Creek Solar Park would also generate millions of dollars in payments to local governments throughout the life of the project, benefiting schools, health and fire departments, and the township and county. Additionally, Flatrock Creek would contribute to meeting Indiana’s energy demands.

100 MWac

ESTIMATED COMMERCIAL
OPERATION DATE **2026**

Flatrock Creek Solar Park’s generation would be equivalent to the average consumption of more than **19,00 Indiana homes**.¹

Flatrock Creek would save more than **127 million gallons** of water each year and prevents the air pollution that causes smog, acid rain, and climate change.²

Economic Benefits

CAPITAL INVESTMENT
\$200 million

Millions
WOULD BE PAID TO LOCAL GOVERNMENTS

Millions of dollars
WOULD BE PAID TO LANDOWNERS

Millions of dollars
WOULD BE SPENT LOCALLY⁴

PERMANENT JOBS⁵
9 jobs would be created

CONSTRUCTION JOBS⁵
approximately 400 jobs would be created

Flatrock Creek Solar Park would consist of **around 750 acres of fenced-in infrastructure.**

Power generated at Flatrock Creek Solar Park would support **Indians' electric grid.**⁶

Flatrock Creek would **contribute to the national energy security** for the state of Indiana and the United States, helping diversify domestic supply.

In 2020, **solar represented nearly 43 percent of new electricity generating capacity in the U.S.**⁷

About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and eight regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,200 MW of onshore utility-scale renewable energy projects. With more than 950 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector. EDPR is the fourth largest renewable energy producer worldwide with a presence in 28 markets across Europe, North America, South America, and Asia Pacific. EDPR has a robust development portfolio with first-class assets and a market-leading operational capability in renewables. These include wind onshore, utility scale and distributed solar, wind offshore (through its 50/50 JV - OW), and technologies complementary to renewables such as batteries and green hydrogen.

EDPR is a division of EDP (Euronext: EDP), a leader in the energy transition with a focus on decarbonization. EDP - EDPR's main shareholder - has been listed on the Dow Jones Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.

¹Power generation calculated using a 25% capacity factor. Household consumption based on the 2021 EIA Household Data monthly average consumption by state.

²Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

³Includes vendor spending, property taxes, landowner payments and wages from site jobs.

⁴Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁵Based on SEIA U.S. Solar Market Insight 2020.
