

Rolling Upland Wind Farm

Madison and Oneida County, New York

Rolling Upland Wind Farm will be located in Madison and Sangerfield townships in Madison and Oneida counties. The project will be adjacent to EDP Renewables' Madison Wind Farm, the first commercial wind farm constructed in New York. Rolling Upland will complement the area's mixed landscape and provide local landowners with a stable, weather-resistant cash crop in the form of landowner lease payments.

76.2 MW
ESTIMATED COMMERCIAL
OPERATION DATE **2026**

Rolling Upland Wind Farm's generation is equivalent to the consumption of more than **32,000 New York homes**.¹

Rolling Upland more than **572 million gallons** of water each year and prevents the air pollution that causes smog, acid rain, and climate change.²

Economic Benefits

CAPITAL INVESTMENT³
\$160 million+

Millions of dollars
WILL BE PAID TO LOCAL
GOVERNMENTS

Millions of dollars
WILL BE PAID TO LANDOWNERS

Millions of dollars
WILL BE SPENT LOCALLY

Multiple permanent jobs⁴
WILL BE CREATED

Hundreds of construction jobs⁴
WILL BE CREATED

Rolling Upland Wind Farm will consist of approximately 14 wind turbines using cutting-edge technology.

Power generated at Rolling Upland Wind Farm **strengthens the New York electric grid.**

Rolling Upland **provides to the national energy security** for the state of New York and the United States, helping diversify domestic supply.

Wind is the top renewable energy source in the U.S., **supplying 8.4 percent of all utility-scale electricity.**⁵

About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and eight regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,200 MW of onshore utility-scale renewable energy projects. With more than 950 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector. EDPR is the fourth largest renewable energy producer worldwide with a presence in 28 markets across Europe, North America, South America and Asia Pacific. EDPR has a robust development portfolio with first-class assets and a market-leading operational capability in renewables. These include wind onshore, utility scale and distributed solar, wind offshore (through its 50/50 JV – OW) and technologies complementary to renewables such as batteries and green hydrogen.

EDPR is a division of EDP (Euronext: EDP), a leader in the energy transition with a focus on decarbonization. EDP – EDPR's main shareholder – has been listed on the Dow Jones Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.

¹ Power generation calculated using a 35% capacity factor for wind based on 2019 AWEA Wind Powers America Annual Report. Household consumption based on the 2018 EIA Household Data monthly average consumption by state.

² Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

³ Assumes the average cost of an installed wind farm is \$1.4 million/MW for projects built after 2018. Based on U.S. DOE 2018 Wind Technologies Market Report, U.S. DOE 2017 Wind Technologies Market Report, and U.S. DOE 2015 Wind Technologies Market Report.

⁴ Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁵ Based on U.S. Energy Information Administration, March 2021.
