

Three Lakes Solar Park

St. Joseph and Cass Counties, Michigan

Three Lakes Solar Park will be located in St. Joseph and Cass Counties, west of the City of Three Rivers. The solar park will complement the area’s agricultural resources, providing farmers with a stable, weather-resistant cash crop in the form of landowner lease payments. Three Lakes Solar Park will also generate millions of dollars in payments to local governments through the life of the project.

Anticipating a minimum of
180+ MW
 ESTIMATED COMMERCIAL
 OPERATION DATE **2027**

Three Lakes Solar Park’s generation will be equivalent to the average consumption of more than **49,000 Michigan homes**.¹

Three Lakes Solar Park will save more than **228 million gallons** of water each year and prevent the air pollution that causes smog, acid rain, and climate change.²

Economic Benefits

CAPITAL INVESTMENT
\$250+ million

Millions of dollars
 WILL BE PAID TO LOCAL GOVERNMENTS

Millions of dollars
 WILL BE PAID TO LANDOWNERS

Millions of dollars
 WILL BE SPENT LOCALLY

Multiple permanent jobs
 WILL BE CREATED

Hundreds of construction jobs
 WILL BE CREATED

About Us

Three Lakes Solar Park will consist of **1,200 acres of fenced-in infrastructure**.

Power generated at Three Lakes Solar Park will support **Michigan's electric grid**.

Three Lakes Solar Park will **contribute to the national energy security** for the state of Michigan and the United States, helping diversify domestic supply.

Solar **costs have fallen 57%** over the last decade, making it one of the **most affordable new electricity sources in the U.S.**³

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms, solar parks, and energy storage systems throughout North America. Headquartered in Houston, Texas, with 58 wind farms, 10 solar parks, and eight regional offices across North America, EDPR NA has developed more than 9,600 megawatts (MW) and operates more than 8,400 MW of onshore utility-scale renewable energy projects. With more than 1,000 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDP), a global leader in the renewable energy sector. EDP is the world's fourth-largest producer of wind and solar energy and is present in 28 markets in Europe, North America, South America, and Asia-Pacific. With headquarters in Madrid and leading regional offices in Houston, São Paulo, and Singapore, EDPR has a sound development portfolio of top-level assets and market-leading operating capacity in renewable energies. Particularly worthy of note are onshore wind, distributed and utility-scale solar, offshore wind (OW - through a 50/50 joint venture), and technologies to complement renewables such as storage and green hydrogen.

EDPR's employee-centered policies have received recognition such as Top Workplaces 2023 in the USA, Top Employer 2023 in Europe (Spain, Italy, France, Romania, Greece, Portugal, and Poland), Colombia, and Brazil, and are also included in the Bloomberg Gender-Equality Index.

EDPR is a division of EDP (Euronext: EDP), a leader in the energy transition with a focus on decarbonization. Besides its strong presence in renewables (with EDPR and hydro operations), EDP has an integrated utility presence in Portugal, Spain, and Brazil including electricity networks, client solutions, and energy management. EDP - EDPR's main shareholder - has been listed on the Dow Jones Sustainability Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.
