## EDPR awarded long-term contracts for 160 MW of Storage in Poland

**Madrid, December 18<sup>th</sup> 2024:** EDP Renováveis, S.A. ("EDPR") has received information about the preliminary results of the main capacity market auction published by Polskie Sieci Elektroenergetyczne S.A., where EDPR has been awarded with 17-year contracts for two Battery Energy Storage System ("BESS") projects in Poland with a total installed capacity of 160 MW (641 MWh).

The projects awarded include:

- A 60 MW (241 MWh) BESS project with COD expected in 2026, and;
- A 100 MW (400 MWh) BESS project with COD expected in 2029.

With these projects, EDPR reinforces its presence in the storage market, having already secured 100% of its target of 0.7 GW for 2024-26 additions in storage and with 57 MW already in operation, allowing EDPR to take advantage of this technology as an important component of the global decarbonization drive given their crucial role to complement variable renewables generation.

This information is disclosed pursuant to the terms and for the purposes of the article 17 of Regulation (EU) No. 596/2014 of the European Parliament and of the Council.
