

## **EDP Renováveis awarded with 38 MW in the Polish renewable energy auction**

**Madrid, 22 November 2018:** EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector and one of the world's largest wind energy producers, has secured 15-year long term contract at the Polish onshore wind auction to sell electricity to be produced by Korsze wind farm with a total capacity of 38 MW. The wind farm project is located in the north east of Poland, with installation expected to occur in 2020, increasing EDPR installed capacity in the country from the current 418 MW.

With this new contract, EDPR has now contracted more than 3.4 GW of global wind onshore and solar capacity additions to be installed from September 2018 onwards, and in addition to its wind offshore projects.

### **About EDP Renewables (EDPR)**

EDP Renewables (Euronext: EDPR) is a global leader in the renewable energy sector and the world's fourth-largest wind energy producer. With a sound development pipeline, first class assets and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 13 markets (Belgium, Brazil, Canada, France, Greece, Italy, Mexico, Poland, Portugal, Romania, Spain, the UK and the US). Energias de Portugal, S.A. ("EDP"), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation and sustainability. EDPR has featured on the Dow Jones Sustainability Index for ten consecutive years.
