

Azalea Springs Solar Park

Angelina County, Texas

Azalea Springs Solar Park is located in the northwest corner of Angelina County, Texas, about 10 miles northwest of Lufkin and 17 miles southwest of Nacogdoches. The solar park is sited on land that was primarily used as a timber site. Azalea Springs Solar Park is commencing construction activities and intends to reach full operations in 2025.

180 MW
ESTIMATED COMMERCIAL
OPERATION DATE **2025**

Azalea Springs Solar Park's generation would be equivalent to the average consumption of more than **27,000 Texas homes**.¹

Azalea Springs Solar Park's would save more than **228 million gallons** of water each year and prevents the air pollution that causes smog, acid rain, and climate change.²

Economic Benefits

CAPITAL INVESTMENT
Approximately \$300+ million

Approximately \$42+ million
PAID TO LOCAL GOVERNMENTS

Millions of dollars
PAID TO LANDOWNERS

Millions of dollars
SPENT LOCALLY

PERMANENT JOBS
3+ jobs would be created

CONSTRUCTION JOBS
Approximately 300 jobs would be created

About us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms, solar parks, and energy storage systems throughout North America. Headquartered in Houston, Texas, with 60 wind farms, 12 solar parks, and eight regional offices across North America, EDPR NA has developed more than 9,600 megawatts (MW) and operates more than 8,900 MW of onshore utility-scale renewable energy projects. With more than 1,000 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector. EDPR is a global leader in renewable energy development with a presence in 28 regions in Europe, North America, South America and Asia-Pacific. With headquarters in Madrid and leading regional offices in Houston, São Paulo and Singapore, EDPR has a sound development portfolio of top-level assets and market-leading operating capacity in renewable energies. Particularly worthy of note are onshore wind, distributed and large-scale solar, offshore wind (OW – through a 50/50 joint venture), and technologies to complement renewables such as storage and green hydrogen.

EDPR's employee-centered policies have received recognition such as Top Workplaces 2023 in the USA, Top Employer 2023 in Europe (Spain, Italy, France, Romania, Greece, Portugal and Poland) Colombia and Brazil, and are also included in the Bloomberg Gender-Equality Index.

EDPR is a division of EDP (Euronext: EDP), a leader in the energy transition with a focus on decarbonization. Besides its strong presence in renewables (with EDPR and hydro operations), EDP has an integrated utility presence in Portugal, Spain and Brazil including electricity networks, client solutions and energy management.

EDP – EDPR's main shareholder – has been listed on the Dow Jones Index for 16 consecutive years, recently being named the most sustainable electricity company on the Index.

For more information, visit www.edpr.com/north-america.

Azalea Springs Solar Park is currently exploring using single-axis tracking PV panels, **across approximately 2,000 acres.**

Power generated at Azalea Springs Solar Park will support **Texas' electric grid.**

Azalea Springs Solar Park will **contribute to the national energy security** for the state of Texas and the United States, helping diversify domestic supply.

In the first three quarters of 2023, solar energy comprised of **48% of all new generating capacity.**⁵
